

# Georgi From Bulgaria

## Why did you decide to come and study in Australia?

There are several reasons. The first reason was that I really like travelling, I really like moving around. For the past few years I have lived in central Europe and before that I travel a lot around the world so it was really interesting for me to experience this new culture and new place. I also really like the climate here and I heard that the people are really friendly here also, and the education is really good even though it is kind of different to the one in Europe. So, these were kind of the reasons.

## So why did you decide on Brisbane? Say opposed to Sydney or Melbourne?

I chose Brisbane, cause I wanted to be in one of the main cities because I know that life here is very different to the country side. So, I decided to choose Brisbane because of my university, actually. Another reason that is really funny was that there was a tennis competition, (the Heineken Open), yeah and we had a really famous Bulgarian player who actually won here this year, and I watched the competition and I watched his interviews and he said he was really fascinated by the city.

## Why did you decide to stay at UniLodge South Bank?

I searched for student accommodation and I searched for Apartments but UniLodge was a really good place because we have the common area and lots of different activities. I saw that there would be activities and I really liked the room and I liked that you could choose to be in your own room or you could choose to be with other people, because in the beginning I thought it would be good to share with other people but then in the end I decided to be alone because it looked very nice. I think that the website was really well made and the information that was on the website made me choose this place.
